

50P-16S Utility Truck

Ideal for dry products of all kinds, MOD developed the 50P-16S with input from staff at Cinelli Iron & Metal Co. "These carts made our whole operation safer and more ergonomically sound," says Cinelli's John Gatto.

The 50P-16S utility truck comes standard with three, metal, fork safety tubes that run the entire width of the plastic cart to allow the entire load to be lifted, rotated and completely emptied.

Our signature caster configuration features oversized, rigid casters in the center to create a slight yet constant tipping action for easy rolling up and over curbs, tailgates and other, minor obstructions.

Standard Features

- Rotationally molded from waterproof, chemical-resistant polyethylene
- Three, steel fork safety tubes
- Hard rubber, non-marking casters - two, 5-inch rigid in center with four, 4-inch swiveling at ends
- Torque-resistant, molded-in inserts
- Permanent, molded-in recycling logo

Featured Options

(May affect shipping weight)

- Permanent, molded-in logos, graphics, tracking information
- Custom caster sizes, materials, configurations
- Rotomolded, hinged cover with locking hasp
- Paper slot(s) in cover
- Rotationally molded, rugged poly base
