

# QUICK COUPLER SYSTEMS

**CHANGE ANY ATTACHMENT IN SECONDS**  
**Any Machine. Any Attachment. Anytime.**

The OilQuick system enables the operator to change over quickly between various attachments from inside the cab. Have the right tool for the job in every situation, so you can work faster and more efficiently.

OilQuick systems are safe and secure. Safety features include double hose break valves and a system for constantly re-adjusting the locking bolts hydraulically. The locking is operated via a pressure panel or touch screen.

Fast tool change to increase productivity. Experience has shown that investing in an OilQuick coupler pays off when you are changing work tools two or more times within a day.

Model	Rotator	Number of Quick Couplers				Max. lift capacity (ton)	Dimensions (in.)				
		1"	3/4"	1/2"	3/8"		A	B	C	D	E
