

# Your Safety is in Our Hands!

# S-2X2-26H-1BTAC

Introducing one of the most versatile pieces of arm protection on the market today, Worldwide Protective Products **exclusive 2x2 sleeve**. Constructed with proprietary ATA® fiber, this product offers ANSI cut level 4 protection. The unique ATA® fiber design also gives the wearer protection from dangerous electrical arc flashes. Using the latest state of the art knitting technology, the S-2x2 sleeve is designed primarily for use in **over clothing** applications, however is comfortable enough to be worn directly on the arm. The S-2x2 is truly a revolution in the arm protection industry, and available **ONLY** from Worldwide Protective Products.
