

Models AVL and VL

Locking Clamp

Horizontal to Vertical - 180°

1/2 through 20 Ton Rated Lift Capacities

Features:

* Horizontal to Vertical Lift

- Capable of turning a single steel plate from horizontal to vertical to horizontal through a 180° arc.

* Lock Open and Close

- Lock open to facilitate loading and unloading clamp.
- Lock close onto material for a more secure lift.

* Remote Release Locking Mechanism

- Enables user to open the clamp from a distance when the load is at rest and secured.
- **Also available:** Remote Locking Mechanism that also allows the user to lock the clamp closed onto the material.

* Rated for 420 Brinell Surface Hardness

- Grippers are rated to lift material with a surface hardness up to 420 Brinell.
- 2 through 20 ton lift capacities have dual gripping cams and a self-aligning gripping pad.
- Also available with **stainless** grippers.

* Wide Jaw Openings

- Wider range within rated lift capacity.

* Working Parts Enclosed

- Working parts remain inside the body in the "locked close" position and the "locked open" position.
- Protects parts for longer use.

* Also Available with a Universal Shackle (p. 4), an Auxiliary Lock (p. 6), and/or Stainless Grippers (p. 8)

Note: The 1/2 ton and 1 ton Model AVL is the same as the 1/2 ton and 1 ton Model VL except for the jaw opening (A).
